Other Items to Note:

- Length May NOT be Greater than +/-3" of OEM Standard
- Grip Must Be Installed and Functional
- All single hybrid golf clubs may be liquidated as fairway woods.
- Golf club headcovers, tool kits, torque wrenches, or other related accessories should be included whenever possible (though not mandatory)
- Golf club specifications that were never made available by the Original Equipment Manufacturer (OEM) do not qualify. Golf club specification is defined as the unique combination of shaft brand, shaft type, shaft flex, shaft length, lie, and loft of a specific brand, model and type (driver, fairway, iron set, wedge, putter) of golf club(s).
